

## **NEW QUALITY AWARDS: LATI BENELUX, LATI IBERICA, LATI USA**

series of elements to be satisfied, accounts for a management model for the company business in which the main elements are the organization, staff roles, planning, communication, group work and evaluation.

Lastly, I should like to inform you that the **QS9000** audit made at **LATI S.p.A.** at the end of June had an extremely positive outcome, due to the continual commitment of all involved, thus helping to maintain LATI's reputation for high quality on the market.

LATI has recently acquired the following new quality awards: Certiquality has recognized the conformance of the Quality System of the **LATI BENELUX, LATI IBERIA and LATI USA branches with the ISO 9002 standard.**

In this way, the great efforts involved (standardization of processes, activities and records) have deservedly been awarded this important certificate.

A special mention goes to LATI France, who, in addition to the successful audit result, is the first company in the group to have organized its own Quality System in accordance with the new **ISO 9000:2000 standard (commonly known as Vision 2000).**

This new standard, to which we must conform by 2003, instead of simply being a
